Slip and Fall Precautions

Keep Floors Dry

• Pause and look down when entering & exiting bathrooms and the kitchen.

• Spilled liquids and other slippery materials must be cleaned up immediately.

• Place a wet floor sign or barricade the area to keep people off wet floors.

• **Everyone** is responsible for keeping floors and works areas clean and safe.

*See it-clean it-own the spill!*

You are allowed and expected to clean up spills on the floors! Thank You
